Dewan Bahasa Jauhar

By Willham Siau (Johor Bahru, Johor, Malaysia / September 2, 2019))

JOHOR BAHRU: "Dewan Bahasa Jauhar" (English: the Institute of Language of Johor), abbreviated DBJ, has been established by Jauhar Academy of Social Sciences (JASS), a Johor Imperial think tank affiliated with Johor Royalists Club for the advocacy of "Bahasa Melayu" (English: the Malay Language) as an additional official language of the United Nations.

Spoken by more than 300 million people, "Bahasa Melayu" is one of the 10 most commonly spoken languages in the world. "Bahasa Melayu" has long been a lingua franca of maritime Southeast Asia which covers Brunei, Indonesia, Malaysia, the Philippines, Singapore, Thailand and East Timor. Having "Bahasa Melayu" as an official language of the United Nations would expand its presence into Asia which is growing rapidly.

"Dewan Bahasa Jauhar" also has as one of its objectives to uphold the Johor-Riau Malay as the standard of "Bahasa Melayu".

PANTERA

By Tyler Craig (Canada / December 31, 2019)

Pantera (Photo: Wikipedia)

Regarded as one of the best and most well respected metal bands of all time, Pantera has become a huge part of my life and the primary influence in my music. From what originally was a hair metal band quickly turned into heavy metal architects with the addition to Phil Anselmo on vocals in 1986. With only self produced albums during the 80s, their first studio produced album with a record label in 1990 changed the world of metal for ever.

The smooth, rhythmic and groove elements from the 1990 album "Cowboys From Hell", the heavier, aggressive sound on the 1992 album "Vulgar Display of Power", and the faster, even heavier sound from the 1994 album "Far Beyond Driven" which debuted at #1 on the billboard top 200, Pantera became one of the greatest metal acts in history. Metal lived through Pantera in the 90s, and they became one of the greatest influences for modern metal. The greatest thing about these albums to me, is that they were ahead of their time, production wise as well as the musicianship. They are everything that metal should be.

Pantera has what I consider an all-star line up: The two brothers in Vinnie Paul Abbott and "Dimebag" Darrell Abbott, Rex Brown and Phillip Anselmo. Dimebag is considered one of the greatest guitar players of all time, as well as widely perceived as the greatest metal guitarist ever. And Phillip Anselmo, who is my vocal idol, had some of the most aggressive vocals in the game. With the passing of both brothers, Dimebag in 2004 and Vinnie in 2018, a Pantera reunion is now impossible. But the mark that their music made will forever be left with us, and there is no doubt that they will one day be inducted into the Rock and Roll hall of fame. There will never be another Pantera.

Plans Afoot To Provide Best Healthcare To All In AP

By Doruvu Paul Jagan Babu (IAIJ Journalist – India / August 17, 2019))

Chief Minister of Andhra Pradesh Mr. YS Jagan Mohan Reddy (Photo Credit: Sakshi)

Amaravati (IAIJ): Assuring that the poor in the State would get the best of the healthcare, Chief Minister YS Jagan Mohan Reddy said that every family in the State with an income less than Rs. 5 lakh an annum would be given an Aarogyasri health card. These cards would be given away to eligible

families from December 21.

The Chief Minister held a detailed review on issues pertaining to medical and health services in the State with senior officials and Ministers here on Aug 13. In the due course of time, the number of services and treatments covered under Aarogya Sri would be enhanced to ensure that for every treatment costing more than Rs. 1,000 for patient would be brought under the scheme. The number of hospitals coming under the ambit of the scheme would be increased as well extending the same to as many as 150 hospitals in neighbouring cities of Hyderabad, Bangalore, and Chennai.

To further improve and bring more services under Aarogya Sri and to see how they manifest on the ground, the Chief Minister ordered a pilot project in West Godavari starting from January 1, 2020 upto three months. The Health department would roll out these new services, treatments and other benefits to patients in the district before it is extended to other districts.

The Chief Minister has ordered the officials concerned to obtain 1000 additional vehicles for the sake of 108 and 104 services. He specifically directed the officials to make efforts to ensure that the vehicles were always in the best of the condition to provide succour to patients in need of emergency services. Towards this effect, every 104 and 108 service vehicles would be replaced with a newer vehicle for every six years.

Outlining various plans for each segment of the healthcare including diagnostic services, emergency treatment centres, ambulances, the Chief Minister categorically instructed officials to transform the State healthcare system into the best model in the country by June 2022. In line with this, five new cancer hospitals and two hospitals for treating kidney ailments would be set up in the State. The cancer hospitals would come up in Kadapa, Vishakapatnam, Guntur, Kurnool and Tirupati. The kidney research centres and speciality hospitals would be constructed in Srikakulam and Prakasam. The foundation stones for these new hospitals would be laid during September and October.

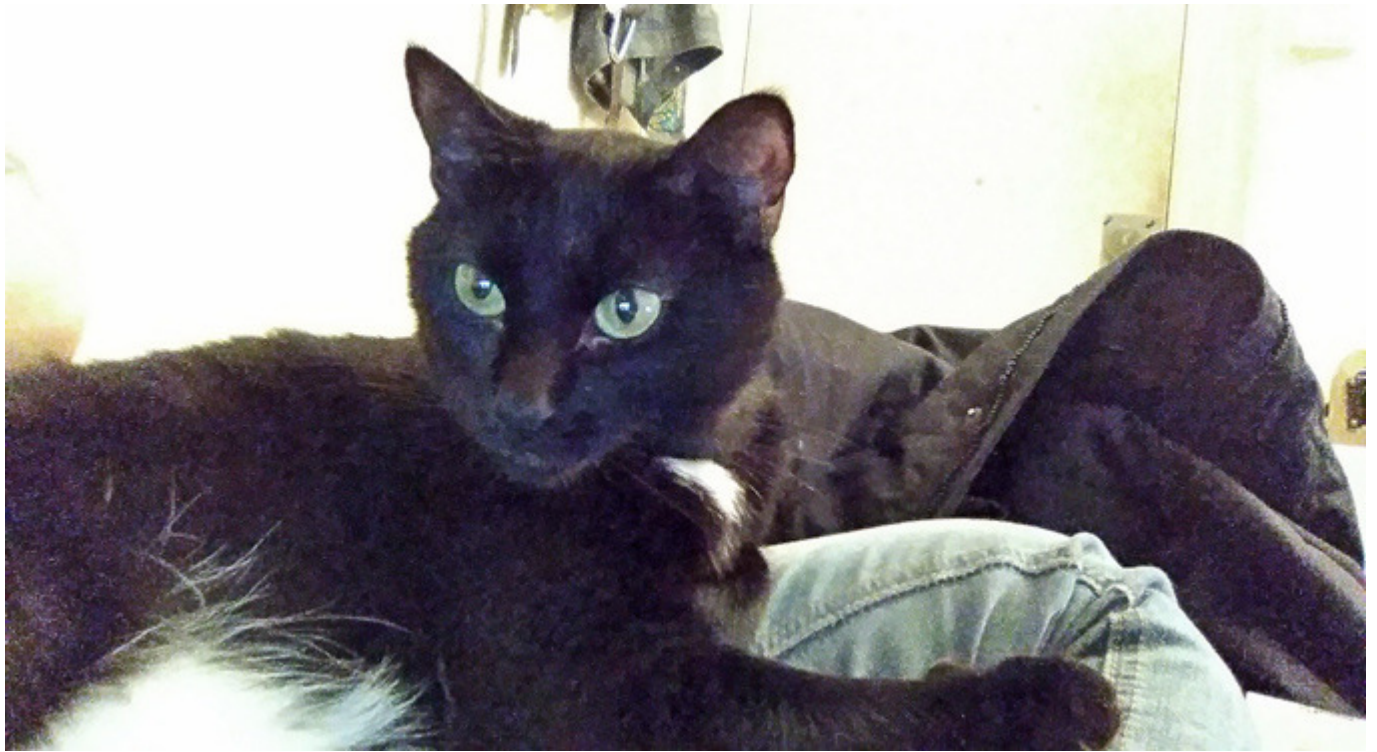

YSR Kanti Velugu From October 10

The Chief Minister announced that YSR Kanti Velugu would be rolled out from October 10 onwards to treat eye-related ailments among the poor in the State. Depending upon the requirement, patients would be provided with medication or spectacles or any surgery.

Pets Without Homes

By Jessica King (Canada / May 10, 2019)

Midnight Dash

There is one shelter for pets and people in all of Toronto. People have animals for companionship, and the waiting list for this one shelter is 2 years long. Most homeless people with pets can't wait that long. And finding a home that allows people with pets is really hard.

You have to make the decision on whether you keep your animal or get rid of them. I would rather be homeless with my animal than be without one. The fact of the matter is a pet is more than an animal. It's your best friend. It's the one person in the world that doesn't care if you are dirty or homeless. They are the one person that will always be there. Midnight Dash was and will always be my baby. Whether I am homeless or not, she is always there by my side.

The homeless shelter system needs to accept more people with pets.

Jauhar Academy of Social Sciences (JASS) – A Johor Imperial Think Tank

By Willham Siau (Malaysia / August 9, 2019)

A discussion of Jauhar Academy of Social Sciences (JASS): (L-R) Council Member and Secretary General Willham Siau, FJA CA(M) CA(ANZ); Chair of Council and President Low Yew Yi, FJA; Council Member and Director of Social, Political and Legal Studies Allen Loh, Esq. FJA; and H.C. Sia, AJA.

JOHOR BAHRU: Jauhar Academy of Social Sciences (JASS), with historical origins in Ongbanchai Academy of Political Science, is a comprehensive academic research organization and center in the Johor Empire for study in the fields of philosophy and social sciences, with the obligation of advancing and innovating in the scientific researches of philosophy, social sciences and policies. It is a think tank affiliated with Johor Royalists Club.

The Academy is registered with the United Nations Department of Economic and Social Affairs in 2019.

The Academy comprises six academic divisions:

- Philosophy and Literature
- History
- Economics
- Social, Political and Legal Studies
- Natural History
- Johorean Studies

The Academy advocates social sciences by interacting with Government and other organizations, and co-ordinates the responses of social scientists to Government consultation documents. A developing part of the Academy's work is to bring researchers and organizations using research closer together to improve the evidence upon which public policy is based and to increase the impact of research.

Six New Websites for the Positive Mandate for Humanity

By Laura Tommasone (September 26, 2019)

Screenshot of new website!

We are pleased to announce that our organization now has six new websites dedicated to the Positive Mandate for Humanity

<https://positivemandateforhumanity.org>
<https://positivemandateforhumanity.com>
<https://positivemandateforhumanity.net>
<https://positivemandate.org>
<https://positivemandate.com>
<https://positivemandate.net>

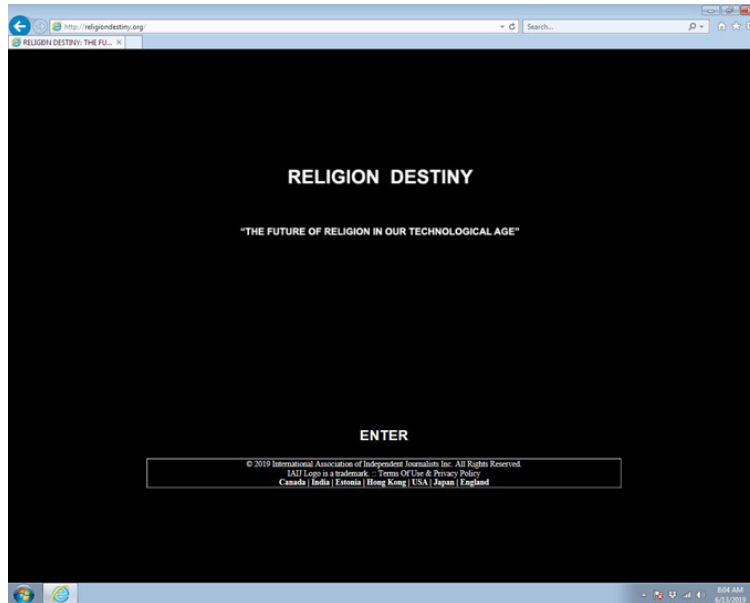

The .com and .net are simply redirects to the .org website for news and information about the positive mandate. Humandestiny.org will now be the all encompassing website for all advocacy from the positive mandate to the AI threat on jobs and so forth and other concerns such as privacy in our technological world and many more areas of interest. The websites are still being tweaked but are now encrypted and up and running as of this moment. These sites mimic our other main sites as to expedite their rise in search engine rankings, so the websites may seem the same but there is method to why they are constructed this way.

More news as it becomes available.

New Website: Religiondestiny.org!

By Laura Tommasone, FOF/IAIJ (June 14, 2019)

Website Screen Shot

Our organizations have a new website called religiondestiny.org! This website will be used to present information and happenings with regard to our advocacy regarding our positive mandate for humanity, the AI mandate and by extension this religion destiny topic. The website will intend to show how the successful moment of sentience in artificial intelligence will also be the first scientific event to prove the existence of what most would call God!

The website is still under construction and has the usual corporate layout many of our websites have.

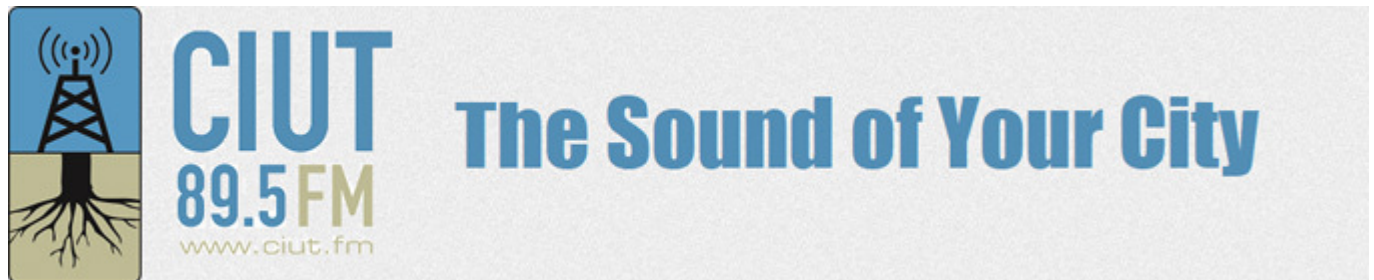

More news as it occurs but please visit our new website here:

World Premiere Screening of The Fortress Experiment!

By Maurice Ali - The Fortress Experiment / Real Life: Real Lives (December 30, 2018)

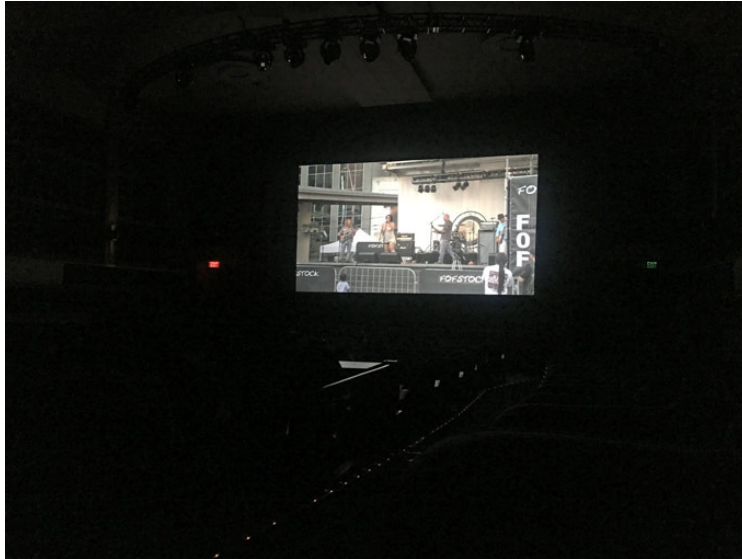

Our show listing on the marquee during the day as we were getting prepared for the screening!

On December 22, 2018 Fortress of Freedom and IAIJ opened the doors of The Royal Cinema to cast crew and general public for the World Premiere of the documentary “The Fortress Experiment” and the short that followed called “Real Life: Real Lives”! The Fortress Experiment is a feature length documentary about a typical community of people given the chance to be all they could be and the result was some insight into what is important in our lives and how we should all live our lives. The short Real Life: Real Lives is a 17 minute documentary on street youth in the Toronto area.

Our show at night on the marquee of The Royal Cinema!

As the producer and director for both films it would be inappropriate for me to make and subjective statements about the actual reviews of the films, but I can take this time to thank the cast and crew who made these productions possible. There are many as in about 50 all told on both productions. You can check out the full castings and credits on the links below. Certainly the core group that helped me launch the experiment need to be named and these include: Dan Strudwick, Michael Atkinson, Dave Getchell, Shane Murphy. I would also like to thank all the support staff such as Samantha Blackwell, Laura Tommasone and Jessica King at FOF and IAIJ for their tireless help. Like I said, there are too many to list individually, but all are to be congratulated on a job well done.

Our film on a 40' wide screen (that red light is an exit sign)!

The Fortress Experiment is not only entertainment, but advocacy to promote a great idea! In the coming months and even years I hope this film gets a broad screening to educate and entertain discerning viewers around the world! Once again, many thanks to everyone who came out for this World Premiere, you people are the best!

Veronica Fade

The IAIJ-FOF Group of corporations is pleased to announce that Veronica Fade was offered and has accepted the position of "Media Associate" at our organization. This position took effect immediately as of April 14 (2019). Her duties will include any and all aspects of help in the media landscape up to representation as an agent of the organization and possible fiduciary duties as needed as well as occasional support in the field during media events.

I'm sure I can speak for all at this organization in wishing Veronica all the best in her new position!
